- What you have done for the project during the week individually
 1. Writing the PROJECT SPECIFICATION part of the proposal
 2. Writing the SYSTEM DESIGN part of the proposal
- What you plan to do for the project next week individually
 1. Having a meeting with my teammates about the proposal presentation
 2. Tring to find some related papers about the deep learning methods for detecting purpose.
 3. Tring to figure out how to use the software to extract the features of source code.
- List the issue you encounter and give reasons if applicable
 1. There are too many other assignments from other courses so that it is hard to maintain two group meetings a week. So I change it to small group meeting, only discussing specific issues with someone who is in charge of it.
